WPS EMERGENCY ROLL CALL

WPS Disaster Management Solutions, and the Emergency Roll Call Feature, offer safety features that keep occupants safe, minimize liability risks and enhance building safety protocols.

SAVE LIVES WITH THE WPS EMERGENCY ROLL CALL FEATURE

Instantly broadcast critical messages to alert occupants of real emergencies

Receive real-time evacuation updates during an emergency - "Safe" or "Need Help"

Ensure that all employees or residents have been safely evacuated and accounted for

Immediately communicate the confirmed status of the building residents to the first responders

PROTECTING TENANTS WITH EMERGENCY ROLL CALL

Emergency situations can be chaotic and unorganized. The Emergency Roll Call Feature has been put in place to maximize positive outcomes in emergency situations. In the event that something goes wrong, the WPS Roll Call Feature will ensure that occupants have the ability to evacuate the building in the most efficient and effective way possible.

PLAN FOR EMERGENCIES WITH WPS SOFTWARE AND SOLUTIONS

For every business owner and building manager, employee and resident safety should always be the number one priority. At WPS, it is our goal to deliver your building's vital life safety plans to your staff and occupants through the use of our user-friendly WPS Evac App.

ADVANTAGES OF THE EMERGENCY ROLL CALL PROCEDURE

Provide your employees/residents with a sense of comfort and security

Reduce existing liability risks that may be present within your building

Added communication and support to ensure residents evacuate the building

Assist the first responders by immediately communicating the confirmed evacuation status of the residents
